## DETAILED ACTION

### *Election/Restrictions*

1. Claims 1, 2, 6, 7, and 13 – 16 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claim 5, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on April 30, 2008 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### *EXAMINER'S AMENDMENT*

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Art Unit: 2815

3. Authorization for this examiner's amendment was given in a telephone interview with Walter F. Fasse (Registration No. 36,132) on May 20, 2009.

The application has been amended as follows:

(A) In the **claims**:

a) In claims 1, 2 and 5 – 7, deleted every reference numbers.

For example, claim 1, line 1, after “device” deleted [(1)].

### ***REASONS FOR ALLOWANCE***

4. Claims 1, 2, 5 – 8 and 10 – 20 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest, either singularly or in combination, at least an electronic device with a base plate, an electronics housing which is connected to the base plate, with at least one bond contact terminal, characterized in that the bond contact terminal has a bond contact area adapted to establish an electrical bond connection, and the bond contact terminal is supported on the base plate by a supporting body, and the supporting body is arranged and positioned so that the bond contact area of the bond contact terminal is located in an area of the supporting body projected in a direction in which the supporting body exerts the pretension force onto the bond contact terminal. Yasuda et al. (U. S. Pat. No. 4,042,861) and Christopher et al. (U. S. Pat. No. 6,058,013) teach an electronic device with a base plate, an electronics housing which is connected to the base plate, with at least one bond contact terminal, characterized in that the bond contact terminal has a bond contact area adapted to establish an electrical bond connection, and the bond contact terminal is supported on the base plate by a

Art Unit: 2815

supporting body. However, Yasuda et al. and Christopher et al. do not teach the supporting body being arranged and positioned so that the bond contact area of the bond contact terminal is located in an area of the supporting body projected in a direction in which the supporting body exerts the pretension force onto the bond contact terminal as set forth in claims 1 and 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRIS C. CHU whose telephone number is (571)272-1724. The examiner can normally be reached on 11:30 - 8:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kenneth Parker can be reached on 571-272-2298. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
